

## Parental and Carer Engagement Charter

**This document was created by staff, parents and governors in October 2018 and sets out to describe the importance St Martin's place on working in partnership with parents and carers.**

At St Martin's we want to promote positive engagement with parents and carers by:-

- Celebrating the impact of parental and carer involvement with the school
- Hearing the parents'/carers' voice at school and encouraging engagement in key events
- Working in partnership with parents and carers to benefit the children, their families and the wider community
- Valuing everyone and celebrating diversity
- Helping to ensure that parents and carers, as well as their children, understand the school's values and understanding
- Creating a culture of mutual appreciation and recognition for the roles of parents, carers, teachers and staff alike
- Offering an 'open door' policy to parents and carers
- Ensuring that parents and carers have the opportunity to meet with governors at school events.
